

Creating a Stereotypes-Free World

ABOUT THE PROJECT

This project focuses on correcting wrong beliefs and showing how similar we are in spite of our differences. Also, it will provide access to the correct information, which is one of the most basic needs of people. In order to serve this purpose, we will eliminate old and wrong beliefs in minds as soon as possible and place new and correct ones instead. In doing so, we will discuss the factors that cause these wrong beliefs from the very beginning. Through the activities, all partner schools will have the opportunity to introduce themselves to the outside world. As we think that our students who are our target group will play a very important role in shaping the society, the idea of enriching their lives and ensuring their success in their future tasks with the help of this project motivated us to do it.

AIMS

- Understanding other cultures' negative attitudes and what is meant by prejudice and stereotypes,
- Being able to recognize our own and others' stereotypical and prejudicial attitudes,
- Being aware of the negative consequences of prejudice and stereotypes,
- Raising empathy towards others,
- Understanding why people use stereotypes,
- Using English as a common communication language,
- Correcting false impressions towards others,
- Learning correct communication methods,
- Developing critical thinking skills.
- Enhancing teachers' skills in teaching and guiding.
- Learning not to discriminate others according to their belief, sex, race, color, language, religion, national or social origin as mentioned in European Convention

WORK PROCESS

This is the online platform of our Ka229 project, so we will upload all the materials we did throughout the project process. Here are the products we will have in the process of the project:

- Project logo,
- Teaching materials,
- Project websites/blogs
- Leaflets and brochures,
- Videos, posters, and publications,
- Handouts and worksheets,
- Stereotypes map,
- Questionnaires, surveys, and quizzes.

EXPECTED RESULTS

As a result of successful completion of the project objectives, the students and teachers will be able to improve their linguistic and communication skills and methods, their responsibilities, performances in the project management and their ability to collaborate with partners in other countries.

With the help of this project, students will be able to learn the notion of European citizenship which cares and respects others who come from different cultures, religions, ethnic origins or social backgrounds etc.
